- ✓ SDLC
- ✓ Agile (Scrum & Kanban), Jira
- ✓ System Design & Architecture
- ✓ Design Principles & Patterns
- ✓ C#, .NET, Web API, ASP.NET, Blazor, WPF, Services, JavaScript, jQuery, Ajax, SQL, CosmosDB, PostgreSQL, CI/CD Github Actions
- ✓ Azure Functions, Service Bus, Cognitive Search, Blob Storage
- ✓ HTML, CSS

SUMMARY

A technology enthusiast with a passion for delivering exceptional software solutions, I bring approximately 7 years of expertise in .NET technologies to the table. My expertise in C#, ASP.NET, Blazor, and Azure has allowed me to create innovative applications that not only meet but exceed business requirements. I am known for my problem-solving skills, attention to detail, and ability to write clean and maintainable code. Collaboration is at the core of my success, and I have a proven track record of working seamlessly with cross-functional teams to drive projects forward and achieve outstanding results. Constantly seeking to expand my skillset and knowledge, I stay up-to-date with the latest advancements in software development and am always ready to tackle new challenges and make a lasting impact in the industry.
